Experience

Senior Software Engineer - 2019 – Present

Optum Global solution – Hyderabad, India.

- Developed UI Components with nested reactive forms. Migrated codebase from Angularjs (MVC) to Angular (MVVM) software architecture with enhanced functionality using pub-sub design pattern, Lazy-loading and reduced initial loading time from **18s** to **5s**.
- Performed code coverage, refactoring and code review. Performed QA and CI/CD and post-production activities.

Senior Software Engineer (Team - lead) - 2014 – 2019

Tekzenit Software Technologies PVT Ltd – Hyderabad, India

- **Lead** team of 8 people tasked at Architecting, Designing, and developing frontend applications with architectural guidelines in mind (secure, high-performing, scalable, extensible, simple), explore existing systems, determine areas of complexity and potential risks.
- Developed WordPress plugins, themes and standalone scripts, API's using PHP and MySQL. Handle full frontend process from UI layout, API integration and form validations.

Software Developer - 2014 – 2014

DataRoutes Knowledge Services PVT Ltd – Hyderabad, India

- Worked closely with data scientist on problem statement and designed application using PHP/MYSQL, ExtJs on visualization part, thereby reducing companies reporting tool licensing (SAP XSLT) cost by **\$10K/year**

Software Engineer - 2012 – 2014

Strategeeks – HYDERABAD, INDIA

- Responsible for user-friendly designing, coding, and modifying websites, from layout to function and API integration and development – played full stack role. Developed visually appealing sites that features design and clear navigation, covered cross-browser and cross platform compatibility issues.

Education

- Bachelor of Technology (Computer Science Engineering) with GPA 4, from Jawaharlal Nehru Technical University, India. Verified International Academic Qualifications (WES) - [Here](#)
